Eruma plc ('Eruma' or 'the Company')

£1.1 Million Contract Win with a Foreign Government Embassy

Eruma plc, the AIM traded specialist provider of counter terrorism, intruder prevention products and intelligent lighting, has, through its security blinds division ('Security Blinds'), won a £1,133,000 contract to install its Secur™ range of security blinds at a London based Foreign Government Embassy.

Under the terms of the contract, Eruma will provide the Embassy with high level security through the installation of its proprietary security blinds in over 500 windows. It is anticipated that over 90% of the installation will be complete by the end of 2011 which will generate approximately £1 million of revenue for this year for Eruma.

Eruma Chief Executive Wayne Money said, "This contract represents one of the most significant contracts to be gained by the Company and was won after many months of evaluation, conceptual design, and proof of suitability to meet the stringent criteria demanded by the client. This prestigious and high value contract highlights Security Blinds' increasing reputation across the international counter terrorist arena and will, we hope, be followed by other similar contracts as our products become more widely recognised."

Notes

Incorporated in March 2005 and listed on AIM, Eruma plc has two divisions - Security Blinds and Illuminex.

Security Blinds is a leading manufacturer of physical security and protection systems in the UK. Servicing both the public and commercial sectors, the patented Secur™ system

provides clients with protection against theft and forced entry. It also gives businesses and institutions the opportunity to take proactive steps to address the modern threat of terrorism having met stringent testing requirements to win endorsement by the Home Office, Association of Chief Police Officers, leading banks, and local authorities through its ability to protect people, property and equipment from bomb blasts. Additionally, Security Blinds produces the Anti Ram Raid Gate, which protects roller-shutters against ramming vehicles and forced entry by jacks or angle grinders.

Illuminex is a supplier and distributor of intelligent lighting systems, providing superior performance whilst reducing costs to businesses through reductions in energy consumption and maintenance overhead. Through using its systems, an organisation's environmental impact and carbon footprint can be significantly reduced, enabling them to seek government funding and loans to implement these solutions.
